

Dr. Brian Jafine graduated with a Bachelor of Science and received his DDS degree from the University of Toronto Faculty of Dentistry in Ontario, Canada. He has been a practicing Endodontist for 30 years, and received his post graduate degree in Endodontics from the Tufts University School of Dental Medicine in Boston, MA.

Dr. Jafine's emphasis is on patient comfort, as well as keeping up-to-date with the latest advancement in endodontic techniques, enabling him to provide the best quality of care for his patients. He has a wide range of experience in different areas of endodontics, from root canal treatments to microsurgery. His expertise is also frequently called upon by referring dentists for endodontic retreatment.

Dr. Jafine is a member of the Canadian and Ontario Dental Associations, as well as the American Association of Endodontics. He is also a member, and has served as President, of three specialty organization: the Canadian Academy of Endodontics, the Ontario Society of Endodontists and the George Hare Endodontic Study Club.

Dr. Jafine's specialty practice, Partners in Endodontics, strives to utilize the best in current sterilization and endodontic treatment techniques. Specialty equipment in his two office locations includes surgical operating microscopes and digital radiography systems in order to provide the optimum in endodontic care for patients requiring root canal treatment.
