

Celebrity Cruises Health & Safety Protocols

Healthy at Sea Protocols

Testing & Screening

Safe vacations start with prevention. Prior to boarding, all guests are required to complete a health questionnaire and guests ages 2 –15 will be required to take a complimentary antigen test at the terminal. In some homeport countries, testing may be required for all guests regardless of vaccination status. An additional test will be administered onboard, free of charge, if required for home country re-entry.

Vaccines

All guests ages 16 years and older must be fully vaccinated with all Covid-19 vaccine doses administered at least 14 days prior to sailing. **As of August 1, 2021, all US Guests age 12 and older must be fully vaccinated.** For UK residents, all guests 18 and over must be fully vaccinated with all Covid-19 vaccine doses administered at least 14 days prior to sailing. Crew members onboard will be vaccinated.

100% Fresh, Filtered Air

HVAC system continuously supplies and filters 100% fresh, filtered air to all spaces. You can breathe easy knowing the robust system's layers of protection make the transmission of aerosol particles between spaces extremely low to virtually impossible.

While On Board

From bow to stern, we're taking extraordinary measures to keep you Healthy at Sea. We're still providing you the premium service and amenities you've come to expect from us, just with even more precautions than before. That includes sailing with fewer guests for more space—and more luxury—in all restaurants and venues, cleaning and sanitization protocols that set a new industry standard, and an enhanced Medical Center.

While Ashore

Curated Shorex may be required in some ports of call and in others, guests may explore on their own provided they wear a mask indoors. Regardless of vaccination status, Celebrity's curated shore excursions are strongly encouraged. Our tours extend the highest health and safety standards we're following on board. Most experiences are outdoors, and guests will be encouraged to stay with their group. Buses will be at reduced capacity and will be sanitized frequently. Small Group Discoveries will be available, and for guests that prefer to tour with their family or group, Private Journeys will be available. We're working closely with local government to comply with their requirements.

24/7 Medical Care

We've made our high-quality onboard medical care stronger than ever, with more doctors and nurses on each ship and state-of-the-art equipment enhancements. And in the event of a suspected case of COVID-19, we're fully prepared with medical evaluations, rapid testing, more critical care on each ship and a safe and prompt return home.

Cruise With Confidence

Book by March 31, 2022 and your cruise fare includes the following at no extra cost:
